**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1, 8, 15, and 23 have been allowed over the Liu et al. (US2002/0197013) and Gurib et al. (US5652812) prior art because they fail to teach, taken singly or combined, the thermo-optical organic material positioned to shift the plurality of first and second reflection wavelengths in response to changes of temperature in the thermo- optical organic material; and a first thermal actuator thermally coupled to change the temperature in the thermo- optical organic material.

Claims 2-7, 9-14, 16-22, and 24-25 have been found allowable due to their dependency on claims 1, 8, 15, and 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
